

Sofia G/Jordan Rossi

Taylor Swift – Website

- Body text should be bigger
- Navigation bar
 - Make the about and eras on the right side of the website
- For responsive, make sure the pictures stay on the whole time – don't make them disappear
- Find a different about picture
- Try to find a different background for the about section other than black
- Make the Taylor Swift (home), about, and eras on all separate tabs
 - You can leave the big picture with the home page and try to put her name somewhere on the big picture
 - Try to find a big picture to be the title on the separate tabs so that it is consistent with the home page
